

CREATION, TRANSMISSION AND RETRIEVAL OF INFORMATION

Abstract

A hand-held control device (10) for controlling a terminal (30) connectable by a
5 communications network to an addressed resource. The device (10) comprises address input
means for scanning and recognizing a text address (26) of the resource, such as a URL, e-
mail address or telephone number, and command output means for uploading address
information from the device (10) to the terminal (30) whereupon the terminal (30) is caused
to connect to the addressed resource.
